

**EXCLUSIVE
DEFIB OFFER**

DID YOU KNOW?

- ★ One in every 150 children suffer from heart disease (Many don't even know it)
- ★ Anaphylaxis and trauma can lead to Sudden Cardiac Arrest
- ★ An ambulance will usually take too long to save someone (they need a DEFIB within 3 mins)
- ★ DEFIBs are safe and won't shock a patient unless it will help

You can protect your staff, parents and children for only \$2,365 or \$14.99 a week

"I sleep a lot better at night knowing that we have a DEFIB. If you can afford one, you should get one too."

**Kris Merrington
