**Covid-19
Safety Plan for**

Australian Childcare Alliance

**Working in partnership
with Coreserve Managed
Cleaning Solutions**

Covid-19 pre opening and certification

- All staff fully trained with correct ppe
- All staff have working with children
- All staff police cleared
- Your old cleaning system is no longer enough
- All staff are department of health Covid-19 trained
- Keeping your business safe and operational
- Boosting staff and customer confidence
- Daily touch point sanitisation and cleaning
- Virus Covid-19 full decontamination cleaning
- Covid-19 sanitisation certification

The Coreserve cleaning division is a trusted Government approved supplier, all staff are **Australian Government and the Department of Health Covid-19 infection control trained**. Australia Childcare need to implement a new cleaning system that uses the correct chemicals and cleaning processes to keep staff and pupils safe. Coreserve continually consult with the best agencies throughout the world to successfully implement systems like the best practices used throughout Taiwan, Hong Kong and Japan, where the spread of the virus has been steadily controlled. Using touch point sanitisation, the Coreserve team provide a "safe haven" for your children and staff.

If your venue has a known positive Covid-19 occupant then a full decontamination clean is completed and a certificate of compliance is issued.

TOUCH POINT CLEANING

The danger for operating businesses is an outbreak which then limits operation while lowering both staff and parent confidence. General cleaning of floors is not adequate, daily cleaning service now requires touch points, entry exit points, floors, air vents, railings and other areas where human contact is likely, sanitisation using a specific chemical which will destroy the virus, the chemical is sprayed and left on the surface for around 5 minutes before being wiped clear. This will vastly reduce the risk of spread ia touch in your work premises.

Doors, handles and doorways

- All switches, power points and push button entries
- Any Lifts and all terminals (eftpos, atms, etc)
- Copiers, printers
- Lockers
- Cupboards, filing cabinets
- Desks, phones, computers, keyboards, mouse, whiteboards.
- Windows, sills, ledges and pillars

On completion a certificate of compliance will be issued

IN THE EVENT OF A POSITIVE OUTBREAK

In the event of an outbreak or a known positive subject on your Premises, you must lock down and fully decontaminate. In many instances the Covid-19 virus has shown it is able to survive for many days on non-porous surfaces. When you get an outbreak in your venue you need to immediately implement the decontamination clean. Your venue will have an impact cleaning team who will thoroughly clean and sanitise all surfaces within the venue.

Covid-19 impact cleaning is a complete and enhanced cleaning procedure that decontaminates an area following known occupation by a contaminated person, also referred to as an 'infectious clean'. The cleaning requires both thorough cleaning and disinfection for environmental decontamination. The terminal cleaning system uses a **2-in-1** cleaning technique which is A physical clean using a combined detergent and hospital-grade disinfectant with activity against viruses. The Environmental decontamination will use a FOGGER to disperse the hospital grade disinfectant over all areas of the premises.

- Prepare room prior to cleaning (personal belongings removed or disposed of)
- Wear PPE – respirator or mask, disposable coverall, protective eye wear and gloves
- Remove any items that are soiled or contaminated, dispose to liners and secure closed
- Damp dust all surfaces, furniture and fittings
- Clean windows, sills and frames
- Clean all surfaces, desks, furniture ,lockers and toys.
- Clean all outside ,play areas and equipment.
- Fully vacuum, Mop and sanitise floors
- Remove PPE and perform hand hygiene
- ERC (Emergency Response Cleaning Team) Mobilized in 2 Hours based on location
- Clean all cleaning equipment and remove from site, safely discard any waste

On completion a certificate of compliance will be issued to be displayed on the premises and any social media you may use.
