- ### Early Childhood Education and Care Relief Package (2 April 2020)
- Not designed to generate 100% of services' revenue prior to COVID-19 on the government's assumption that most services would be generating operating surpluses during this time.
 - It will impact every service differently.
 - Those who may be more negatively impacted include:
 - Those with payroll expenses in excess of 75% of revenue.
 - Those with lease costs that exceed 15% of revenue.
 - Those who are charging considerably higher than the hourly rate cap.

25

Relief Package, JobKeeper, PAYG Cash Grants & Supplementary Funding

*Australian Tax Office: I can confirm that we **do not** consider the Business Continuity Payment and Exceptional Circumstances Supplementary Payment made by the Department of Education, Skills & Employment (DESE) to a childcare provider (under the Early Childhood Education & Care Relief Package) consideration for a supply.*

The conditions that are set for these payments are eligibility requirements rather than the entering into any legally binding obligations. There are no legally binding obligations to provide a service or to spend the money in a particular way. In accordance with GSTR 2012/2 we do not consider these payments are consideration for a supply.

Accordingly, the payments would not be included by a childcare provider in calculating their projected GST turnover for the purposes of the JobKeeper provisions.
